SCRIPT.JS:

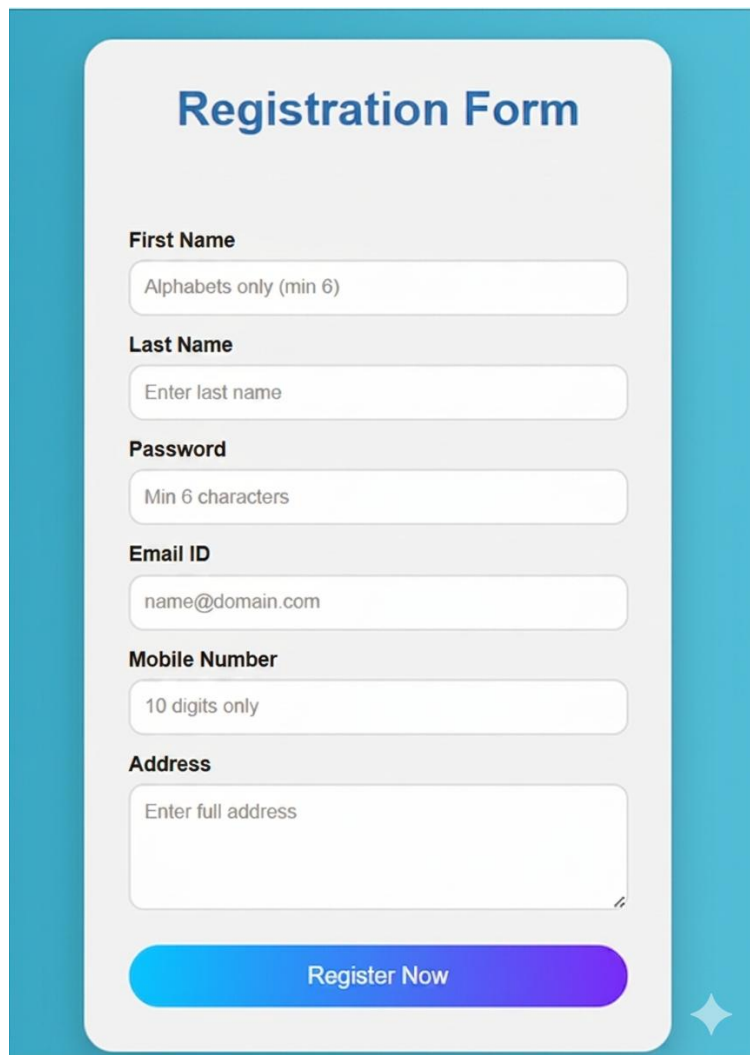

```
function validateForm(){
let fname = document.getElementById("fname").value.trim();
let lname = document.getElementById("lname").value.trim();
let password = document.getElementById("password").value;
let email = document.getElementById("email").value;
let mobile = document.getElementById("mobile").value;
let address = document.getElementById("address").value.trim();

let namePattern = /^[A-Za-z]+$;/;
let emailPattern = /^[^\s@]+@[^\s@]+\.[^\s@]+$;/;
let mobilePattern = /^[0-9]{10}$;/;

if(!namePattern.test(fname) || fname.length<6){
alert("First Name must be alphabets C min 6 characters");
return false;
}
if(lname==="){
alert("Last Name required");
return false;
}
if(password.length<6){
alert("Password min 6 characters");
return false;
}
if(!emailPattern.test(email)){
alert("Enter valid Email");
return false;
}
if(!mobilePattern.test(mobile)){
alert("Mobile must be 10 digits");
return false;
}
if(address==="){
alert("Address required");
return false;
}

alert("Registration Successful!");
return true;
}
```

OUTPUT:

A registration form UI mockup with a teal background and a light gray rounded rectangle containing the form fields. The form has a title 'Registration Form' in bold blue text. Below it are six input fields, each with a label and a placeholder text. The last field is a larger text area for the address. At the bottom is a blue-to-purple gradient button labeled 'Register Now'. A small teal star icon is in the bottom right corner of the form area.

Registration Form

First Name
Alphabets only (min 6)

Last Name
Enter last name

Password
Min 6 characters

Email ID
name@domain.com

Mobile Number
10 digits only

Address
Enter full address

Register Now
